Contents

NUMBER 1, MARCH 1979

Notes for the guidance of authors vii

R. MARSH. The effects of wilting on fermentation in the silo and on the nutritive value of silage 1

J. HODGSON. Nomenclature and definitions in grazing studies 11

M. C. REES and D. J. MINSON. The validity of *in vitro* techniques using rumen fluid or cellulose for predicting changes in the dry matter digestibility of grasses caused by fertilizer calcium, sulphur, phosphorus and nitrogen 19

R. J. HAGGER. Competition between *Lolium perenne* and *Poa trivialis* during establishment 27

R. J. K. WALTERS and E. M. EVANS. Evaluation of a sward sampling technique for estimating herbage intake by grazing sheep 37

J. A. MILNE, L. BAGLEY and S. A. GRANT. Effect of season and level of grazing on the utilization of heather by sheep. 2. Diet selection and intake 45

J. D. H. KEATINGE, M. S. CAMLIN and R. H. STEWART. The influence of climatic factors on the physiological development in perennial ryegrass 55

Summaries of offered papers read at the Winter Meeting of the British Grassland Society on 6 December 1978 61

Book reviews 79

NUMBER 2, JUNE 1979

J. K. THOMPSON and R. W. WARREN. Variations in composition of pasture herbage 83

A. PIKE, T. MCNEILLY and P. D. PUTWAIN. Survivor populations of S23 perennial ryegrass from zero-grazed and set-stocked swards 89

G. H. WILLIAMS and D. FRASER. The effects of asulam, frond cutting and ground mineral phosphate on the yield of swards dominated by bracken (*Pteridium aquilinum* (L.) Kuhn) 95

M. E. CASTLE and J. N. WATSON. Silage and milk production: a comparison between soya, ground nut and single-cell protein as silage supplements 101

J. KING, W. I. C. LAMB and M. T. MCGREGOR. Regrowth of ryegrass swards subject to different cutting regimes and stocking densities 107

D. H. HIDES. Winter hardiness in *Lolium multiflorum* Lam. III. Selection for improved cold tolerance and its effect on agronomic performance 119

A. HAYSTEAD, J. KING and W. I. C. LAMB. Photosynthesis, respiration and nitrogen fixation in white clover 125

I. V. HUNT, J. FRAME and R. D. HARKESS. The effect of date of primary growth harvest and levels of nitrogen and potassium fertilizers on the dry matter production of timothy (*Phleum pratense*) 131

L. JONES. The effect of stage of growth on the rate of drying of cut grass at 20°C 139

M. S. KALDY, M. R. HANNA and S. SMOLIAK. Amino acid composition of sainfoin forage 145

S. THOMAS and R. C. CAMPLING. The digestibility of diets containing processed

dried lucerne by sheep and cows. (Research Note) 149

Book Review 153

NUMBER 3, SEPTEMBER 1979

M. GILL. The principles and practice of feeding ruminants on complete diets 155

G. E. DAVIES, P. NEWBOULD and G. J. BAILLIE. The effect of controlling bracken [*Pteridium aquilinum* (*L.*) Kuhn] on pasture production 163

J. VADIVELOO and W. HOLMES. Supplementary feeding of grazing beef cattle 173

R. M. JONES and J. N. G. HARGREAVES. Improvements to the dry-weight-rank method for measuring botanical composition 181

A. S. LAIDLAW. Effects of grazing by lambs in autumn on a red clover-perennial ryegrass sward 191

M. E. CASTLE, J. N. WATSON and J. D. LEAVER. A comparison between barley and groundnut as supplements for dairy cows at pasture 197

S. W. HAWKINS and P. H. ROSE. The relationship between the rate of fertilizer nitrogen applied to grassland and milk production; an analysis of recorded farm data 203

J. COMBELLAS and J. HODGSON. Herbage intake and milk production by grazing dairy cows 1. The effects of variation in herbage mass and daily herbage allowance in a short-term trial 209

R. M. RAJA HARUN and E. W. BEAN. Seed development and seed shedding in North Italian ecotypes of *Lolium multiflorum* 215

P. D. HEBBLETHWAITE and J. S. MCLAREN. Nitrogen studies in *Lolium perenne* grown from seed III. The effect of nitrogen and water stress 221

A. H. ADAMSON, D. W. NEWELL and M. E. CASTLE. A comparison between supplements to silage of high digestibility offered to dairy cows. (Research Note) 229

R. JONES. The effect of drying techniques on formononetin concentration in red clover. (Research Note) 233

Book Reviews 237

NUMBER 4, DECEMBER 1979

Appreciation of REX PATERSON 239

A. HAYSTEAD and C. MARRIOTT. Effects of rates and times of application of starter dressings of nitrogen fertilizer to surface sown perennial ryegrass-white clover on hill peat 241

Y. L. P. LE DU, J. COMBELLAS, J. HODGSON and R. D. BAKER. Herbage intake and milk production by grazing dairy cows. 2. The effects of level of winter feeding and daily herbage allowance 249

W. S. JAMIESON and J. HODGSON. The effect of daily herbage allowance and sward characteristics upon the ingestive behaviour and herbage intake of calves under strip-grazing management 261

W. S. JAMIESON and J. HODGSON. The effects of variation in sward characteristics upon the ingestive behaviour and herbage intake of calves and lambs under a continuous stocking management 273

R. D. SHELDRICK. The quality of 'brown midrib 3' mutant maize grown for forage under field conditions in southern England 283

M. E. CASTLE, W. C. RETTER and J. N. WATSON. Silage and milk production: comparisons between grass silage of three different chop lengths 293

J. COMBELLAS, R. D. BAKER and J. HODGSON. Concentrate supplementation, and the herbage intake and milk production of heifers grazing *Cenchrus ciliaris* 303

C. M. CARPINTERO, A. R. HENDERSON, and P. MCDONALD. The effect of some pre-treatments on proteolysis during the ensiling of herbage 311

G. H. WILLIAMS. Effect of time of spraying of glyphosate on the vegetation of an upland deep peat soil. (Research Note) 317

J. VADIVELOO, and W. HOLMES. The effects of cereal supplementation of grass and maize silages. (Research Note) 319
